Subject: RE: US 95 Thorncreek Rd to Moscow documents

Charissa – I can't meet anytime Tuesday before 3pm because I need the time to prepare for my 2-3 meeting with the Upper Skagit Tribe on a big 401 WQC impact project.
Sorry that's not clear on my calendar. I could meet after 3pm or better on Wed 5/31.

Linda E. Storm, Aquatic Ecologist

Cc: Thiesing, Mary; Peak, Tracy
Subject: US 95 Thorncreek Rd to Moscow documents
When: Tuesday, May 30, 2017 2:00 PM-3:00 PM (UTC-07:00) Mountain Time (US & Canada).
Where: [Deliberative Process / Ex. 5] (code [Deliberative Process / Ex. 5] #)

Hi Folks,

Perhaps this may be a good time to meet? Tracy has volunteered to draft a comment letter (for which I am very grateful as this will be my first time submitting comments on a large project) and then I will be adding to her draft. So by this meeting, we will have a draft comment letter to review. It would also be a good time to incorporate your comments/ feedback as needed.

Thanks!

Cheers,
Charissa

Hi Elaine – I'm in on Tuesday but will need most of the day to prepare for an important two o'clock meeting. I could meet later in the day (though I know Charissa is 1-hr later). Wed I telework but could meet by conference call with you then.

Linda

Subject: RE: US 95 Thorncreek Rd to Moscow documents

Thank you, Linda! Yes, we can meet early next week – are you here on Tuesday?

Charissa is lead for responding to the Public Notice. Tracy last worked on this project at the Final EIS stage, so we are all collaborating. I sent Charissa and Tracy (and you) your comments and the response to your comments for the Prairie remnants report by Juanita Lichthardt (2005). I also highlighted the portions that are most relevant to the LEDPA discussion. It may be that that is all that is needed for now. If you have anything to add to those thoughts, or if Charissa has further questions for you, your input would be most welcome. We understand your plate is overflowing, so we want to respect that and simply ask you to share your thoughts/perspectives if you have anything to add, or answer any questions.

The maps showing prairie remnants in the project area, and their relative values, are available in the attached pdf of Juanita's Vegetation report. I think those maps are sufficient to illustrate the concern regarding [Deliberative Process / Ex. 5](#)

[Deliberative Process / Ex. 5](#) It also contains maps that illustrate the reach of [Deliberative Process / Ex. 5](#)

Others please feel free to chime in here as well, but my guess is that one conversation with us to answer questions and share your thoughts would be all that is needed. At the least, we would want you to know this Public Notice has been issued, and that it is our last chance to: [Deliberative Process / Ex. 5](#)

[Deliberative Process / Ex. 5](#)

[Deliberative Process / Ex. 5](#)

Thank you so much, Linda, as always -- talk soon!

Elaine

Hi there Elaine – I saw your request for me to assist on this in terms of identifying the LEDPA. If you and I could meet briefly early next week (when I'm next in the office) so I can get a clearer sense from you on the present action, timeline, what you want me to do relative to my colleague's in Idaho's role etc. that would be helpful. Please invite the appropriate person who is working on the 404 Public Notice for this (do you know if it's Charissa or Tracy?). Unfortunately, Elaine, I've got so many projects on my plate that I'm juggling right now and lots of deadlines I'm managing that I don't know if I can squeeze in another one. Getting a better sense of your ask and the level of effort would help me a lot. I also want to be sure I'm providing support to whomever is assigned this review in Idaho. It's been a long time since I was involved in this. Your help summarizing where things are with the project would help me out. Thanks,
Linda
